

Safeguarding Adults Awareness Workshop

Aim of this course:

The aim of this training is to increase awareness of the types/forms of abuse to enable identification of preventative measures to avoid abuse, and establish what should be done when abuse is suspected.

Participants will identify ways to improve the safety of vulnerable adults by looking at the major changes brought about by the Care Act (2014) such as Making Safeguarding Personal, founded on Six Key Principles that should guide everyone who works with adults, in all settings. **No decision about me Without me** is the person-centred approach where the adult, their family and carers work together with agencies to support informed choices and decision making to keep people safe.

This workshop is a stand-alone-course that has strong links to the NAPPI Positive Behaviour Support continuum. The more staff are aware about an individual, the more that can be done to reduce **behaviour of concern** and empower them to have a better quality of life.

This 3 hour Safeguarding Adults Awareness workshop covers the following modules:

- Introduction and needs assessment

- Identify who is at risk
